

We are very much delighted, because you are considering the PMF National Council of Paramedical which established in 2016 registered under the Indian Trust Act, 1860 by Govt of NCT, Delhi. PMFNCP encourage the students to achieve quality in Paramedical & Health Allied Education and ensuring overall development of students. We also recognize the importance of supportive and assimilate learning environment using innovative teaching and learning methodologies.

Paramedical Science are the current new upcoming category of vocational courses with wide range of Professional and Educational career. It varies from laboratory course for Medical management in the hospital to Medical Ambulance and pharmacy paramedics for pharmacies.

We also offer optimum blend of best technical and personality development skills. PMFNCP believes that Paramedical Education must seek students of uncommon ability and commitment to give them an education that will help them to make the most of gift they already possessed.

We have worked to build an Institution which commands the highest reputation and provides the most competitive learning infrastructure in its field. PMFNCP associated in all over India with its rich infrastructure training partners having well trained and highly qualified faculties known for their clinical skills with large and varied selection of carefully guided practical experiences. PMFNCP has always defined its mission for excellence with motto “*Healthy India-Wealthy India*”.

I am committed to creating an inclusive and supportive environment where every student feels valued and respected.

I hope that upon your completion of training, you will take pride in what you have achieved in these coming years. I look forward to witnessing your growth and achievements.

*With arm regards and best wishes,*

**(Dr. Janak D Chauhan )**
